The Health Resources and Services Administration (HRSA) of the United States Department of Health and Human Services has as its mission the improvement of access to health care and services for underserved and vulnerable populations. HRSA accomplishes this mission by partnering with community-based organizations in the delivery of health and social services, with academic health centers in the education of health professionals, and with State and local health departments in the areas of prevention, public health promotion and health care delivery. It optimizes quality of life by active anticipation, prevention, and treatment of suffering. It emphasizes use of an interdisciplinary team approach throughout the continuum of...
