As an acupuncturist and massage practitioner, she has found there are many simple ways parents can provide relief and even healing for many common ailments that afflict children by using touch therapy. Trigger point therapy releases restricted muscles and acupressure allows energy to flow freely, activating the body's remarkable healing abilities. Colds, sore throats, ear infections, constipation, diarrhea, vomiting, and even asthma are some of the common conditions that can be relieved by touch therapy. Finando presents an in-depth explanation of each condition, providing information on causative factors, dietary and behavior recommendations, point techniques that can offer relief, and when to seek medical help. The gentle techniques that form this healing practice also extend to other parent-child interactions, offering a comprehensive model for the care and nurturing of children.
