The Reinvention of Edison Thomas (Hardback)

By Jacqueline Houtman

Front Street Inc, United States, 2010. Hardback. Book Condition: New. 208 x 142 mm. Language: English . Brand New Book. Eddy Thomas can read a college physics book, but he can't read the emotions on the faces of his classmates at Drayton Middle School. He can spend hours tinkering with an invention, but he can't stand more than a few minutes in a noisy crowd, like the crowd at the science fair, which Eddy fails to win. When the local school crossing guard is laid off, Eddy is haunted by thoughts of the potentially disastrous consequences and invents a traffic-calming device, using parts he has scavenged from discarded machines. Eddy also discovers new friends, who appreciate his abilities and respect his unique view of the world. They help Eddy realize that his friend Mitch is the person behind the progressively more distressing things that happened to Eddy. By trusting his real friends and accepting their help, Eddy uses his talents to help others and rethinks his purely mechanical definition of success in this Tofte/Wright Children's Literature Award winner.
