McGill-Queen's University Press. Paperback. Book Condition: new. BRAND NEW, Mad Cows and Mother's Milk: The Perils of Poor Risk Communication (2nd Revised edition), William Leiss, Douglas Powell, Communicating the nature and consequences of environmental and health risks is still one of the most problematic areas of public policy in Western democracies. Mad Cows and Mothers Milk outlines the crucial role of risk management in dealing with public controversies and analyses risk communication practice to provide a set of lessons for risk managers and communicators. This second edition adds new case studies on mad cow disease in North America, climate change and genetic technologies. The first of the new case studies brings the story of the Bovine Spongiform Encephalopathy (BSE) outbreak in the United Kingdom in the 1980s up-to-date. Mad cow disease is still being discovered in UK herds and cases of mad cow disease have been found in twenty countries across the European continent and as far away as Japan with devastating consequences for the food industry. BSE has now been discovered on the North American continent in two cows born in Canada. The original cause of these two new cases is almost certainly importation of infected cattle, cattle feed, or both from Britain. Canadian government regulators and those in the cattle industry have failed to correctly assess the risks of the disease in the Canadian herd, take the precautionary measures needed to prevent the spread of disease, and communicate risks and precautionary measures to the public. The second new study deals with global warming. Not only is every aspect of this risk debate both contentious and difficult for the public to understand but the potential consequences of the risks extend all the way to global catastrophe for human civilization. A new chapter outlines the many dimensions of risk debate...
