There have been wars as long as mankind remembers, but this is not a war like others. This is the war which will stand out from the world's history like a Titan among the pigmies. This is the war in which undreamed-of armies will storm against each other; the war in which the battles will be fought on land and sea, under the water and high in the air; the war in which the ground of the whole globe will be shaken. -from Chapter I: The Aggressors As a psychologist and an innovator of experimental psychology, Hugo Munsterberg was a powerful influence on thinking in both the medical and social arenas at the turn of the 20th century, developing practical applications of psychology to industry, medicine, education, the arts, and criminal investigation. Here, though, in this 1914 work, Munsterberg turns his scientific eye on American culture as it was on the precipice of World War I, which he rightly foresaw as a horrific Great War. With the perspective not only of an...
